40E-1.6107 Transfer of Environmental Resource, Surface Water Management, or Water Use Permit.

(1) To transfer an environmental resource, surface water management, or water use permit, the permittee, in addition to satisfying the applicable provisions in Rules 40E-2.351 and 40E-4.351, F.A.C., must provide information required in Rule 40E-1.6105, F.A.C., together with a written statement from the proposed transferee that it has reviewed the District permit and project design and will be bound by all terms and conditions of the permit, including all compliance requirements, for the duration of the permit.

(2) The District shall approve the transfer of a permit unless it determines that the proposed transferee cannot provide reasonable assurances that conditions of the permit will be met. The determination shall be limited solely to the ability of the new permittee to comply with the conditions of the existing permit, and it shall not concern the adequacy of those permit conditions.

(3) The District shall approve the transfer of the permit if the requirements in Subsections (1) and (2) are met. If the District proposes to deny the transfer, it shall provide both the permittee and the proposed transferee a written objection to such transfer together with the notice of right to request a Chapter 120, F.S., proceeding on such determination.

(4) Until transfer is approved by the District, the permittee shall be liable for compliance with the permit. The permittee transferring the permit shall remain liable for any corrective actions that are required as a result of any violations of the permit which occurred prior to the transfer of the permit.
